

The figure displays 24-hour activity profiles for six different BLN_C PI lines. Each panel shows a timeline from 0 to 24 hours with various activity peaks labeled with codes like BUSS, CVP, TOPN, BARO, C Cab, and C Va. Time points are marked with vertical lines and numbers. Some panels include a blue arrow indicating a specific time point. The bottom right of each panel contains a table with 'Lav' and 'Cef' values for 'Km' and 'Not' categories.
